

## NETWORK & INTERNET ACCEPTABLE USE

The Horseheads Central School District Board of Education considers computer access to the Internet to be a valuable tool for education. Staff and student uses of the Internet must be in support of education and consistent with the purposes of the Horseheads Central School District. This access, through the District network, should be used to support and enhance instruction and professional development.

Because access to the Internet provides connections to systems located all over the world, staff, students, and parents of students must understand that neither the Horseheads Central School District nor any individual District staff member controls the content available on these systems. Some of the information is controversial and may be offensive. The Horseheads Central School District does not condone the use of such material.

The Horseheads Central School District Board of Education considers network and Internet use to be a privilege not a right and that use entails responsibility. Staff Internet use is currently available via individual accounts. Student Internet use may be available as well. CIPA compliant Internet filtering software will not eliminate the requirement to act responsibly. All District users have a responsibility to use the network in an appropriate and responsible manner following the rules set forth in this policy.

Failure to adhere to the regulations accompanying this policy will result in revocation of access privileges and may result in disciplinary action.

Users should expect only limited privacy in the contents of their personal files on the District system. Routine maintenance and monitoring of the system may lead to the discovery that users have violated this policy, the District / Building Discipline code or the law.

An individual account search may be conducted to determine if a user has violated this policy, the District Code of Conduct, or the law. The investigation will be reasonable and related to the suspected violation.
