

The Superintendent received information from the Chemung County Office of Real Property Services stating the total taxable assessed value for the Town of Big Flats was calculated incorrectly. The original tax warrant, which the Board of Education adopted at the meeting of August 12, 2010, contained the incorrect calculation. The total taxable assessed value was originally reported at \$637,266,586 and should have been reported at \$641,164,986.

THEREFORE BE IT RESOLVED, the appendix to the tax warrant showing the tax rates in the various towns shall be amended to show the correct full value tax rate of \$17.635142 per \$1,000 of assessed valuation.
