Anti-Virus Software Notes

As you are aware, Day Automation Systems has provided various Computer Network-Integrated components in your Building Automaton and Security systems.

Because of the susceptibility of computers to damage from external sources in the form of Computer Viruses, Malware and various forms of possible Network Service Attacks, it is highly recommended that you review the issue of requirements and responsibility for the protection of these machines. We are available to meet to discuss these issues.

As a matter of normal course, we deploy security protection by McAfee or Kaspersky, but system security maintenance is a matter that is addressed in any number of ways as a function of owner's preference and policy, in terms of "how" machines are to be "locked down", and selection of Virus/Firewall protection software products. As such, we need to establish an understanding of how protection is best implemented and maintained for your specific installation.

The following tabulation outlines the topics we see as concerning.

1. Maintenance of the anti-virus
2. Implementation and maintenance of firewall
3. Implementation of patches and updates of the OS
4. Backups
5. Database maintenance
6. Consideration and planning for O/S & Hardware upgrades
7. Mitigation of an issue created by a security breach / system infection

Please let us know if you would like to meet and discuss your specific Anti-Virus requirements.

Coverage Options

Option: Basic

Includes

- (1) Preventive Maintenance visit – see detail below
- Phone support
- Preferred labor rate of \$75/hour
- Preferred discount rate on material

Preventive Maintenance Tasks (as applicable per contract options & equip)

Option 2 - Plus

Includes

1. Adds complete labor coverage for all repairs or replacements due to failure
2. Includes software upgrades within version. Major version software upgrades will be quoted separately.
3. No material coverage is included
4. All material provided at preferred discount rate

Option 3 - Complete

Includes

1. Adds material coverage for all repairs or replacements due to failure
2. Limited to equipment provided by Day Automation

Service Contract Information

- ❖ Service Call Hours are defined as hours during normal business hours (7:30am – 4:30pm) that may be performed either on-site or off-site. Off-Site is defined as work not done at the customer's facility and is accomplished off line or through Internet / Telephone connection.
- ❖ For service calls needing immediate attention outside the normal working hours, Day Automation shall furnish the owner with a telephone number where a service representative can be reached at all times. Day Automation shall make best effort to respond by telephone and to provide Internet or Telephone service outside normal working hours within 1 hour. Day Automation shall make Emergency on-site Service available as agreed with the owner at the time.
- ❖ Day Automation shall charge the Service Contract hours for those expended outside normal working hours at a rate of 1.5 Times the Preferred billing rate.

Day Automation 2day Training class included up 4 people.

**EMERGENCY SERVICE HOTLINE
PROCEDURE**

A Service Technician is available 24 hours a day, 7 days a week

585-924-4630 ext 232 or 800-836-0969 ext 232.

When calling, please provide the following information:

1. Your name
2. Your company's name
3. A telephone number where you can be reached, including the area code

INSURANCE

Day Automation shall provide all insurance certificates as requested to prove Workers Compensation and liability coverage.

WORK REQUESTS

A separate record shall be kept of each service call and request for service. At the time work is accomplished, the Owner shall receive a record of the work performed.

SOFTWARE MODIFICATIONS

A software modification is defined as a change to the control cycle operation of the equipment, or a change in the occupancy schedules. The owner shall make best effort to provide Day Automation Service Department 24 hours notice for all changes/modifications requested to the software program.

TEMPORARY COMPUTER EQUIPMENT SUPPORT

Day Automation shall provide temporary equipment that is required to maintain service to the facility while factory repairs are made for Contracts including equipment coverage. For those contracts not including equipment coverage, the loaner equipment shall be invoiced as an extra to the Contract.

TIME AND MATERIAL WORK

Any work requested that is performed on a time and material basis, or for any work performed that is not covered under this preventive maintenance agreement, owner/owner's representative shall provide Day Automation with a purchase order at the time services are performed. No work will be performed without written authorization or a purchase order. We request that a copy of your purchase order be sent to Day Automation, 7931 Rae Boulevard Victor, New York, 14584.

Limitations

This Service Contract does not include any material or work required as a result of damage to the system by lightning, water, temperature, hackers, viruses, vandalism or other factors that do not constitute normal wear and tear. Additionally, this Service Contract also does not include catastrophic insurance against issues that would cause wholesale damage to system elements. Electrical surges or oil and water in the instrument air supply system are cited as examples of such issues.

Day Automation is not responsible for any consequential damage of property caused by system malfunction. Day Automation is not responsible for any consequential damage of property caused by owner manipulation error of the system.

Day Automation reserves the right not to perform work on any equipment if said equipment is located in or near hazardous materials (i.e. asbestos, toxic chemicals, etc.)

SCHNEIDER ELECTRIC ANDOVER CONTROLS EQUIPMENT AVAILABILITY

Day Automation shall make available all currently supported Andover Controls equipment. That which is no longer supported shall be supported only to the best of our ability.

Service Rates

Please note that **these rates** will apply to time and material work performed that is not included in your contract (if applicable) or to any additional work requested by the owner over and above their contract (if applicable).
