MEMBERSHIP IN SCHOOL BOARDS ASSOCIATIONS

~~REMOVE--It shall be the policy ...~~ ADD—When fiscally possible, it shall be the goal of the Board of Education to maintain memberships in the Rural Schools Association and the New York State School Boards Association. ~~REMOVE-- National School Boards Association.~~ Experience has proven that these memberships provide a great amount of assistance with essential informational programs, such as legislation, school management, and educational trends. These memberships also afford opportunities for participation with other schools of the state and nation in solving common problems, learning from each other, and pooling resources for the benefit of all.

The Superintendent of Schools may recommend additional memberships determined to be of value to the district. The Board will consider and act upon these additional recommendations as they are made.
