

Encl. # 8.1
May 30, 2013

RESOLVED, that the Horseheads Board of Education appoints High School Senior Austin Smith as Student Representative to the Board of Education, and Paige DeRichie as the Alternate Student Representative to the Board of Education, for the 2013-14 school year.

May 7 11:45 AM

Austin Smith

5/1/13

My Vision: The Government of Horseheads High School

I believe we, the members of the Horseheads High School community are obligated to do all we can to make this school better for the coming generations who will follow our footsteps as we follow others before us. I feel I am qualified for the position of Student Representative because I care about our school and have good leadership skills which I further improved upon when I was nominated and attended the Youth Leadership Institute in summer 2012. I am a kind and patient person and open to others ideas and opinions. If selected as Student Representative, I would represent our school to the best of my ability and value the opportunity to learn from our community leaders.

"My Vision: The Government of Horseheads High School"

There are many important pieces to the Horseheads High School government. My vision for the school community would be for it become stronger and more united in meeting the needs of our adults and youth. As a member of the school board, it is our responsibility to support one another in decisions that affect all of our students and every community member. My piece in this system is to be a voice for the students which I represent. I will bring a student's view on what we feel is most important while continuing to support our school district's policies. I plan to help make Horseheads Central School District and its diverse community a more unified and stronger system in assisting in and deciding on ~~what the~~ priorities of our community are and how to meet the needs of its members.
