School Principal's Signature \_\_\_\_\_ Date \_\_\_\_\_

I certify that the information provided above and in the attached documents is true and accurate to the best of my knowledge. I understand that the accountability status determination reported in the Information Reporting Services (IRS) portal/nySTART is official and that the district and its school must meet all federal and State requirements pertaining to such accountability designations and expected student performance improvements.

I further certify that I have reviewed the Diagnostic Self-Review Document and met with the school leadership to discuss and revise the rubric ratings as appropriate and that I concur that the ratings provided in the rubric are an accurate assessment of the school's current performance in relation to the tenets.

Superintendent's Signature \_\_\_\_\_ Date \_\_\_\_\_  
For New York City schools, the Community School District Superintendent must sign the self-assessment.

**A Message to School/District Leaders:**  
The purpose of the New York State Education Department (NYSED) school review is to provide all New York State (NYS) stakeholders currently involved in school and/or district evaluation with cogent messages around school improvement and highly effective educational practices. Our thinking is that the more the NYS educational community engages in common practices and uses common language to evaluate and describe effective schools, the more readily we, as an educational community, will be able to provide high-quality seats to all students in our state.

## Guidance

The Diagnostic Self-Review Document provides an opportunity for the school, with the assistance of the district, to assess its current level of performance in regard to the school leadership, teacher practices and decisions, curriculum development and support, student social and emotional developmental health, and family and community engagement. Schools should use the self-review as an opportunity to identify actions to be taken to improve student academic results for the identified subgroup(s), describe the district resources to be used to implement the actions identified, and describe the professional development activities planned to support the implementation of the actions to improve student academic results.

The Diagnostic Self-Review Document and Report Template must be approved by the district's Board of Education (for New York City (NYC) schools, it must be approved by the Chancellor) and posted to the district's website by **Friday, November 20, 2015**, as well as kept on file at both the school and the district offices.

## Completing This Form

- ✓ Before completing this form, please examine the rubric, and discuss the tenets and the statements of practice with the district representative who will be assisting you in completing, reviewing and approving your LAP Self-Assessment. As the rubric used for the Diagnostic Self-Review is the same one as used for Diagnostic Review for School and District Effectiveness (DTSDE) conducted in Focus Districts, the DTSDE website (<http://www.p12.nysed.gov/accountability/diagnostic-tool-institute/home.html>) contains helpful information about the rubric.
- ✓ In collaboration with your school leadership team and your district representatives, complete the Self-Review by identifying the strategies and practices you either are planning to implement or have implemented that meet the needs of your school, as identified by the assessment.
  - Pay particular attention to the performance of the subgroups that caused the school to be identified as requiring a Local Assistance Plan (LAP).
  - Use evaluative language and connect how the strategies and practices have or will impact teaching and learning.
  - Make sure the activities proposed reflect a new and robust direction or a continuation of practices that are showing evidence-based positive results in closing the achievement gap(s).
- ✓ Be concise and clear when describing the evidence that supports your ratings.
- ✓ Provide information in the plan that addresses the “who, what, when, and why” of the strategies chosen to meet the needs of the school.
- ✓ **Please Note:** The designation of a school as a LAP means that a school has areas that need improvement, particularly as they relate to the subgroup(s) of students who are failing to make academic gains. These areas should be reflected in the ratings, evidence and action plans outlined in this assessment.
- ✓ Before the completed Self-Review Document and Report Template are submitted to the Board of Education (for NYC, the Chancellor) for approval, the school superintendent must meet with the school leadership to discuss and revise the rubric ratings as appropriate.

A successfully completed Self-Review provides an accurate picture of your school and its needs and describes the actions you and the district will take to address these needs. The evidence and plans for improvement described in the document will closely align to the expectations put forth in the rubric, therefore aligning the plan to the optimal conditions for school effectiveness.

If you have any questions regarding completion of the Local Assistance Plan Self Assessment, please send an email to [accountinfo@nysed.gov](mailto:accountinfo@nysed.gov).

\*Student Sustainability or Student Stability is the percentage of students in the highest grade in a school who were also enrolled in that school at any time during the previous school year. For example, if School A, which serves Grades 6–8, has 100 students enrolled in Grade 8 this year, and 92 of those 100 students were also enrolled in School A last year, the stability rate for the school is 92 percent.

Rate each practice with an H, E, D, or I in the space provided. Before assigning a rating of Effective or Highly Effective to a Statement of Practice, the school should pay particular attention to how the statement of practice is related to the performance of the subgroup(s) of students who caused the school to be identified as requiring a LAP. When providing a response to a Statement of Practice that is Effective, Developing, or Ineffective, the school should specify whether actions will be targeted to the subgroup(s) of students who caused the school's identification or be part of a whole school transformation or turnaround strategy.

**Tenet 2 - School Leader Practices and Decisions:** Visionary leaders create a school community and culture that lead to success, well-being and high academic outcomes for all students via systems of continuous and sustainable school improvement.

**Rating** **Statement of Practice 2.2:** The school leader ensures that the school community shares the Specific, Measurable, Ambitious, Results-oriented, and Timely (SMART) goals/mission and long-term vision inclusive of core values that address the priorities outlined in the School Comprehensive Educational Plan (SCEP).
